ABOUT ME

I am a dedicated B.Tech Computer Science student with a strong interest in coding, analytics, and problem-solving. I actively work on improving my skills in C/C++ and Python while strengthening my understanding of core subjects like DBMS, DAA, and Digital Logic. Alongside academics, I balance dance practice, fitness goals, and content creation with disciplined time management. Consistent, self-driven, and growth-oriented, I strive to continuously improve both technically and personally while building a strong foundation for a career in IT.
